What to do first

Start with the first applicable item in the repair plan.

Page 1 | 1 findings

https://example.org/

Repair plan

1 distinct repair tasks. The first 1 are shown below. See page findings for evidence and retest steps.

> **1. Medium | Page 1**
>
> Add a page title that identifies the business.

Coverage

Checks used the HTML received or uploaded. Response headers are listed for fetched pages. When available, response timing is from a single HTML request. If shown, linked-page statuses cover a sample of up to three same-origin destinations. Rendered layout, Core Web Vitals, and full accessibility require separate testing.

Observed values

Medium priority

Evidence: No nonempty title element in the returned HTML.
Fix: Add a page title that identifies the business.
Verify: Confirm the change in the published page source.
